Forensic Science International

Subject index

Volume 76 (1995)

Abuse of human rights; Torture; Medical examination; Political asylum **76**, 69

Administration; Health information systems; Networking **39**, 25

Adrenaline/noradrenaline ratio; Catecholamines; Hypothermia; Urinary excretion **76**, 227

Alcohol-drug interactions; Toxicology; Cocaine and alcohol; Cocaethylene formation; Gas chromatography/mass spectrometry **76**, 189

Amphetamine; Drug seizures; Importation; Cannabis; Cocaine; Heroin; Mathematical model **76**, 217

Amphetamines; Urine; Head space; SPME; Gas chromatography-mass spectro-metry **76**, 169

Animal model; Electrical excitability; Skeletal muscle; Postmortem period **76**, 91

Arrest; Torture; Solitary confinement; Spain **76**, 151

Arterial injury; Screwdriver; Intracranial injury **76**, 211

Australia; Population databases; PCR; Hardy-Weinberg equilibrium; Linkage equilibrium; Gc; HLA-DQA1; D1S80; HUMTH01 **76**, 1

Blood spatters; Gunshot suicide; Conjunctival hemorrhages; Firearms **76**, 47

Body identification; DNA; PCR; STR profiling; Mass disaster; Case history **76**, 7

Brain; Manganese; Graphite furnace atomic absorption spectrophotometry (GFAAS)Total parenteral nutrition (TPN); Total parenteral nutrition (TPN) **76**, 199

Cannabis; Drug seizures; Importation; Amphetamine; Cocaine; Heroin; Mathematical model **76**, 217

Care plans; Managed care; Practice guidelines; Practice algorithms; HIS **39**, 105

Case histories; Polymethylsiloxane; Rape; Detection technique **76**, 121

Case history; DNA; PCR; STR profiling; Body identification; Mass disaster **76**, 7

Catecholamines; Hypothermia; Adrenaline/noradrenaline ratio; Urinary excretion **76**, 227

CEN; Controlled vocabularies; Standardisation; Nomenclatures; Computer-based patient record; Coding systems; UMLS; GALEN; SNOMED **39**, 93

Children; Morphine; Poisoning; Overdose **76**, 55

Chromatographic analysis; Methamphetamine; Ephedrine; Hydriodic acid/red phosphorus; Reduction; Impurities; Mass spectrometry; NMR spectroscopy **76**, 97

Clinical data repositories; Clinical information systems; Computer-based patient records; Clinical research; Exploratory data analysis **39**, 151

Clinical decision support; Expert systems; Knowledge-based systems; Clinical information systems **39**, 59

Clinical information systems; Clinical data repositories; Computer-based patient records; Clinical research; Exploratory data analysis **39**, 151

Clinical information systems; Computer-based patient record **39**, 43

Clinical information systems; Expert systems; Knowledge-based systems; Clinical decision support **39**, 59

Clinical research; Clinical data repositories; Computer-based patient records; Clinical information systems; Exploratory data analysis **39**, 151

Cocaethylene formation; Toxicology; Cocaine and alcohol; Alcohol-drug interactions; Gas chromatography/mass spectrometry **76**, 189

Cocaine; Drug seizures; Importation; Amphetamine; Cannabis; Heroin; Mathematical model **76**, 217

Cocaine and alcohol; Toxicology; Cocaethylene formation; Alcohol-drug interactions; Gas chromatography/mass spectrometry **76**, 189

Coding systems; Controlled vocabularies; Standardisation; Nomenclatures; Computer-based patient record; CEN; UMLS; GALEN; SNOMED **39**, 93

Cold; Liquid nitrogen; Karyopyknosis and vacuolation in the epidermis; Hyperemia; Edema; Hemoglobin; Immunohistochemistry **76**, 61

Communication network; Migration pathway; Integration; Open systems; HIS **39**, 75

Computer systems; Diagnosis, computer assisted; Health care costs; Health services; Cost control **39**, 35

Computer-based patient record; Clinical information systems **39**, 43

Computer-based patient record; Controlled vocabularies; Standardisation; Nomenclatures; Coding systems; CEN; UMLS; GALEN; SNOMED **39**, 93

Computer-based patient record; CPR; Electronic patient record; HIS; MIS **39**, 19

Computer-based patient records; Clinical data repositories; Clinical information systems; Clinical research; Exploratory data analysis **39**, 151

Computerized patient record; Healthcare professional workstation; Software engineering; Integration; Reuse; Technology evaluation **39**, 119

Computerized patient records; Telematics; Telemedicine; Open systems **39**, 47

Conceptual graphs; Information retrieval; UMLS; SNOMED; Free text analysis **39**, 139

Conjunctival hemorrhages; Gunshot suicide; Blood spatters; Firearms **76**, 47

Controlled vocabularies; Coding systems; Standardisation; Nomenclatures; Computer-based patient record; CEN; UMLS; GALEN; SNOMED **39**, 93

Cost control; Diagnosis, computer assisted; Health care costs; Computer systems; Health services **39**, 35

CPR; Computer-based patient record; Electronic patient record; HIS; MIS **39**, 19

D1S80; Australia; Population databases; PCR; Hardy-Weinberg equilibrium; Linkage equilibrium; Gc; HLA-DQA1; HUMTH01 **76**, 1

Data interchange standards; Healthcare standards; Vocabulary standards **39**, 87

Data protection standards; Security **39**, 133

Death; Tetrachloroethylene; Gas chromatography; Electron capture detection **76**, 161

Death; Water intoxication; Hyponatremia; Malpractice; Medical negligence **76**, 27

Deceleration distance; Gadd severity index; Injury; Weighting factor; Impact **76**, 85

Degraded samples; PCR; Short Tandem Repeats; Forensic identification; Mass disaster **76**, 17

Detection technique; Polymethylsiloxane; Rape; Case histories **76**, 121

Developing countries; HIS; Priorities **39**, 175

Diagnosis, computer assisted; Health services; Health care costs; Computer systems; Cost control **39**, 35

D-dimer; Skin wounds; Vitality diagnosis **76**, 141

DNA; PCR; STR profiling; Body identification; Mass disaster; Case history **76**, 7

Dothiepin; Tricyclic antidepressants; Poisoning; Post-mortem samples; Hair **76**, 205

Drug seizures; Importation; Amphetamine; Cannabis; Cocaine; Heroin; Mathematical model **76**, 217

Edema; Liquid nitrogen; Cold; Karyopyknosis and vacuolation in the epidermis; Hyperemia; Hemoglobin; Immunohistochemistry **76**, 61

Electrical excitability; Skeletal muscle; Post-mortem period; Animal model **76**, 91

Electrocution; Low-voltage; Forensic examination **76**, 115

Electron capture detection; Tetrachloroethylene; Gas chromatography; Death **76**, 161

Electronic patient record; CPR; Computer-based patient record; HIS; MIS **39**, 19

Enterprise modelling; Framework; Re-engineering; Reference architecture **39**, 99

Enterprise systems; Information infrastructure; Information gateways; Informatics **39**, 113

Enzyme-linked immunosorbent assay; Semen identification; Seminal γ-glutamyl transpeptidase; Monoclonal antibodies **76**, 35

Ephedrine; Methamphetamine; Hydriodic acid/red phosphorus; Reduction; Impurities; Chromatographic analysis; Mass spectrometry; NMR spectroscopy **76**, 97

Ethanol; Toxicology; Postmortem degradation and production; Ethanol-*d6*; Gas chromatography/mass spectrometry **76**, 129

Ethanol production; Toxicology; Postmortem diffusion of ethanol-d6; Putrefaction; Gas chromatography-mass spectrometry **76**, 179

Ethanol-*d6*; Toxicology; Postmortem degradation and production; Ethanol; Gas chromatography/mass spectrometry **76**, 129

Expert systems; Clinical decision support; Knowledge-based systems; Clinical information systems **39**, 59

Exploratory data analysis; Clinical data repositories; Computer-based patient records; Clinical research; Clinical information systems **39**, 151

Firearms; Gunshot suicide; Blood spatters; Conjunctival hemorrhages **76**, 47

Forensic examination; Electrocution; Low-voltage **76**, 115

Forensic identification; PCR; Short Tandem Repeats; Mass disaster; Degraded samples **76**, 17

Framework; Enterprise modelling; Re-engineering; Reference architecture **39**, 99

Free text analysis; Information retrieval; UMLS; SNOMED; Conceptual graphs **39**, 139

Gadd severity index; Injury; Weighting factor; Deceleration distance; Impact **76**, 85

GALEN; Controlled vocabularies; Standardisation; Nomenclatures; Computer-based patient record; CEN; UMLS; Coding systems; SNOMED **39**, 93

Gas chromatography; Tetrachloroethylene; Electron capture detection; Death **76**, 161

Gas chromatography-mass spectrometry; Amphetamines; Urine; Head space; SPME **76**, 169

Gas chromatography-mass spectrometry; Toxicology; Postmortem diffusion of ethanol-d6; Putrefaction; Ethanol production **76**, 179

Gas chromatography/mass spectrometry; Toxicology; Cocaine and alcohol; Cocaethylene formation; Alcohol-drug interactions **76**, 189

Gas chromatography/mass spectrometry; Toxicology; Postmortem degradation and production; Ethanol-*d6*; Ethanol **76**, 129

Gc; Australia; Population databases; PCR; Hardy-Weinberg equilibrium; Linkage equilibrium; HLA-DQA1; D1S80; HUMTH01 **76**, 1

Graphite furnace atomic absorption spectrophotometry (GFAAS)Manganese; Manganese; Brain; Total parenteral nutrition (TPN) **76**, 199

Gunshot suicide; Blood spatters; Conjunctival hemorrhages; Firearms **76**, 47

Hair; Dothiepin; Tricyclic antidepressants; Poisoning; Post-mortem samples **76**, 205

Hardy-Weinberg equilibrium; Australia; Population databases; PCR; Linkage equilibrium; Gc; HLA-DQA1; D1S80; HUMTH01 **76**, 1

Head space; Amphetamines; Urine; SPME; Gas chromatography-mass spectrometry **76**, 169

Health care costs; Diagnosis, computer assisted; Health services; Computer systems; Cost control **39**, 35

Health information systems; Administration; Networking **39**, 25

Health services; Diagnosis, computer assisted; Health care costs; Computer systems; Cost control **39**, 35

Healthcare informatics; International harmonisation; Quality management **39**, 81

Healthcare informatics; Russia **39**, 163

Healthcare information management systems; Medical informatics research **39**, 127

Healthcare information systems; Healthcare systems; HIS and primary healthcare; Public health; HIS and developing countries; Standards for HIS **39**, 169

Healthcare professional workstation; Computerized patient record; Software engineering; Integration; Reuse; Technology evaluation **39**, 119

Healthcare standards; Data interchange standards; Vocabulary standards **39**, 87

Healthcare systems; Healthcare information systems; HIS and primary healthcare; Public health; HIS and developing countries; Standards for HIS **39**, 169

Hemoglobin; Liquid nitrogen; Cold; Karyopyknosis and vacuolation in the epidermis; Hyperemia; Edema; Immunohistochemistry **76**, 61

Heroin; Drug seizures; Importation; Amphetamine; Cannabis; Cocaine; Mathematical model **76**, 217

HIS; CPR; Electronic patient record; Computer-based patient record; MIS **39**, 19

HIS; Developing countries; Priorities **39**, 175

HIS; Integration; Open systems **39**, 53

HIS; Managed care; Practice guidelines; Practice algorithms; Care plans **39**, 105

HIS; Migration pathway; Integration; Open systems; Communication network **39**, 75

HIS; Open systems **39**, 31
